## **Antibacterial** WIPES

### Wipe Away Dirt and Kill Harmful Germs Effectively

Germs are invisible and harmful. Certain types of germs can live on our hands for up to 24 hours. Therefore, it is important to establish good personal hygiene in the house, working place and school to prevent germs from making you and your loved ones ill.

*Pureen* Antibacterial Wipes are effective against harmful germs. They are specially formulated with proven antibacterial ingredients to kill 99.9% of germs that cause illness such as the common flu, food poisoning and diarrhoea.

**Do you know that these are the few common objects where germs may thrive?**

- Magazines in clinics
- Restaurant menus
- Computer/laptop keyboards
- Hotel/hospital remote controls
- Doorknobs
- ATM machines

#### **Protect yourself and your loved ones**

Exposure to germs is unavoidable and it is easy for germs on your hands to end up in your body. Our hands are germs transmitters. To reduce the germs transferring from someone sick, make sure you sanitise your hands with *Pureen* Antibacterial Wipes to stay protected and germ-free. The wipes are also great to use before preparing food, before and after meal, after using the toilet, changing a diaper, handling animal or animal waste, touching the dustbin or any dirty surface.

#### **Protect young children**

Young children's under-developed immune system makes them more susceptible to diseases than adults. Cold and flu, Hand, Foot and Mouth Disease (HFMD) and diarrhoea are the common contagious infections among children. Unseen germs can easily spread through unsanitised hands. Educate your children to cover their mouth and nose with a tissue when they cough or sneeze and wipe their hands using *Pureen* Antibacterial Wipes to reduce the risk of spreading germs to others. If your children are outdoor lover, just take *Pureen* Antibacterial Wipes with them when they are going for playground, sports and camping activities for clean hands and protection.

#### **Effective and Convenient**

*Pureen* Antibacterial Wipes are made of soft, thick and moisturised cottony material that clean your skin gently and effectively. It is made of mild ingredients and free of alcohol, paraben and fragrance, so they do not irritate skin and are gentle even on sensitive skin. In addition, *Pureen* Antibacterial Wipes are hypoallergenic and dermatologically tested. They have been proven not to induce skin irritation or an allergic reaction when used on allergic skin.

*Pureen* Antibacterial Wipes are enriched with soothing Aloe Vera and moisturising Vitamin E to protect and care for your skin. It leaves the skin smooth, moisturised and refreshed after each use.

With *Pureen* Antibacterial Wipes' reliable protection to kill 99.9% of germs, it keeps you and your loved ones clean and healthy-at home or on the go all year round! Look out for *Pureen* Antibacterial Wipes in leading hypermarkets, supermarkets, departmental stores, medical halls and pharmacies.
